Government has officially aunounced that the legal tender dollar is worth only 60% With the price of gold at 170 the cents. legal-tender dollar is worth only about 58 cents. Government fixes the price at eight the custom-house, payments for gold dollars at a dollar and a halfin legal-tenuer dollars. This official admission of the depreciation of legal-tender dollars to 60% cents operates disastronsly on government credit. It places prominently before the people the fact that everybody who receives for his labor one legal tender dollar is rebbed of 333 cents; that every man on a salary or having factorised its capital, has enlarged, fixed income of three thousand dollars a year, when paid in legal-tender notes, only receives two thousand dollars and is actually robbed of one thousand dollars. This suggests naturally the questions: By whom am I robbed of one-third of my just dues, for whom and for what? Does my loss of onethird of my just dues go into the United States treasury? Does it go to cancel the public debr, does it go to put down the rebellion, and if it goes to none of these things, which it does not, where, then, does it go? Every laborer, every salaried man, every holder of a bond and mortgage, every landlord, every receiver of a dividend on a railway stock, or a railway mortgage, is robbed of one-third of his just dues by the government legal-tender paper policy. In other words, if we assume the daily receipts, from these sources, of the twenty millions of loyal citizens at one dollar per day-which is an under estimate-then the loss deducted from the income of loyal citizens in cash is about \$6,600,000 per day.-The delay expenses of the government are MRS. WINSLOW'S SOOTHING SYRUP, for children, at Dr. R. HORNER'S Drug official estimate. It follows, therefore, that the twenty millions of loyal citizens could afford to pay in eash every day \$2,000,000, or ten per cent, of their cash income, and thus carry on the war without any national

debt, on a specie basis, besides being gainers! per money system the twenty millions of loyal citizens are swindled out of their just dues in order to enrich Washington officials | Swann. and their friends. The nation is robbed and impoverished, legitimate trading is paralyzed, and gambling is fostered and stimulated for the avowed and sole purpose of enriching a parcel of Washington M Courtney.

DEMOCRATIC STATE CONVENTION. Electors, Delegates, and State Central Committee Appointed.

ION. C. L. WARD, OF BRADFORD, CHAIR-MAN OF THE COMMITTEE.

The Democratic State Convention met on Thursday, March 24th, at the National Guards' Hall, in Philadelphia. Its proceedings were characterized by the greatest enthusiasm and harmony. Every portion of the State was represented, and the delegates were marked men, the principal Hirst, John S McCalmont, J Y James, William H. W citizens of this great Commonwealth. All Wm A Wallace and James K Kerr were were bent upon one great object—the restoration of the Union and the vindication of the Constitution. The great Democratic party was out in its strength, and every effort was made to rescue this great Commonwealth from the tyranny under which it groans. One consideration surmounted all others. Personal feelings and prejudices were forgotten, in order to form a united party for the salvation of the country. campaign with a united front, to meet the

THE TESTIMONY OF REPUBLICANS.

The Boston Post thus eleverly epitomizes the testimony of leading Republican authorities, showing corruption and weakness on the part of the administration:

Mr. Phillips says only five United States Mr. Paninps says only live United States. Senators are in favor of Mr. Lincoln's reclection, and among those are not Messra. Summer and Wilson. Mr. Blair, on the floor of Congress, accuses the Secretary of the Treasury of gross misdeeds says the department is rotten with corruption, and that this is so palpable the friends of Mr. Chase date not call for investigation. General Fremont declares he has been badly treated by the administration, and pouts. The Gratz Brown radicals smit-the President as Somson did the Philis tines, hip and thigh, and often with the same weapon. General Banks is derided by the Republicans in Massachusetts !--Senator Hale said in his seat he though: the liberties of the country were more langer from the proflicacy that was practiced upon the treasury than they were from the rebels in the field. The Springfield Republican asks, "Is lying a vice inherent in republican institutions, or mere ly incidental to Mr. Lincoln's administra-tion?" Thaddens Stevens says if the government go on expending money at the present rate, the people will be in one general bankruptcy and ruin.— Thurlow Weed writes to the Albany Ex-ning Journal: "Until the administration thoroughly sifts and probes the iniquities of the New York Custom House, the people will be justified in inquiring whether their treasure and blood shall continue to flow by millions and in rivers, while its own officials are playing into the hands of the enemy." Senator Pomeroy says that should Mr. Lincoln be re-elected the affairs of the country will go on from bad to worse in his hands, and the war will languish until our Delegates-R. Bruce Petriken, Daniel public debt will overwhelm us. Mr. Boutwell denounces the President's plan of re-Construction. Winter Davis charges the President with acting without law, and Miss Dickinson boxes the ears of Mr. Sow and to the evident delight of a Republican multitude who hang upon her words as the bee upon the flower. The persons here named are all Republicans, if not "all hon-

The testimony of General Hancock before the Committee on the Conduct of the War, in relation to the battle tiettysburg, detracts somewhat from the glory which has been claimed by General Sickles and General Meade. It is to the effect that on the morning of the 1st of July General Meade directed General Baucock to proceed to the front and assume command of the First, Third, and Eleventh corps. Upon arriving at Gettysburg he found that the First and Eleventh had been driven back and were in considerable confusion. He relieved General Howard and proceeded to form a line on which an engagement might be fought—this being in accordance with Gen-eral Meade's instructions. He was engaged in forming the line, when the Third corps came up, and position was assigned it. He then reported by an aid to General Meade, and the remaining divisions of the army were ordered up. The line thus selected was the one on which the three days' bat-State Committee—E. S. Golden, Jas. tles were fought; and General Hancock baden, Wm. H. The Battle of Getysburg .- This battle cems destined to be pretty thoroughly ventilated. If, in the future history of this rebellion, the historian don't give a full and authentic account of this great battle, it will be because too much has been said on this subject. Too many facts have been given. The Committee on the Conduct of the War has the battle before them: Quite a number of generals have been before them Among others General Butterfield, the Chief On motion of Mr Hirst, it was made battle-field, has been on the stand. In his of Staff of General Meade on the famous testimony he states that sieneral Meade gave it as his opinion "that Gettysburg was no place to fight the battle."

Identified by its services with the history of this war, the First corps gave at Gettyeburg a crowning proof of valor and enduance in saving from the enemy the strong position upon which the battle was fought. The terrible losses suffered by the corps on the 1st of July attest its supreme devotion to the country. Though the title of the corps may not survive the present changes. history will not be silent upon the magnitude of its services.

John Newton, Major-General. Miscegenation in Harrisburg.-The Abolitionists of Harrisburg are not much behind their brethren of New England in paying homage to the negro. We are told that on Sanday last a scene was witnessed in the Locust street Methodist church which fully illustrates the fact that we are up with eastern tashion. The Lord's Supper was administered, and in the first platoon of gentiemen who came forward to partake of it, was a colored man. Now, we presume, the negro had a perfect right to do so, if the congregation was willing, but the parson who administered the sacrement first tendered the bread and wine cup to the darkey, thus showing his partiality for the colcred man on two consecutive communion days. Some of the white brethren were disposed to demurrat such marked attention, but the Abolitionists of the congregation explained it away by saying that it was

This is a little ahead of the Beechers, and the sons of Beechers who have preached amalgamation, but up to this time have not practiced it. If the new doctrine of miscegenation or amaigamation is to be carried out here, we do not see the necessity of the colored folks building churches and paying preachers, especially if they are to be honored with front seats and are always to have the honor of communing before any of the "white trash." -- Patriot & Union. 2 Be not Cheated .- The State Convention of

Those who should be warned by these symptoms generally think lightly of them until it is too late. .From this fact, perhaps more than any other, arises the and prevalence and fatality of disease which sweeps to the grave at east "one sixth" of death's victime.

Consumption has destroyed more of the human family than any other dicesse, and the best physicians for many years have despaired of a cure, or a remedy that would beal the lungs, but for more than two hundred years the whole medical world has been impressed that there was a mysterious power and efficiency in the Pine Tree Tar to heal the langs; therefore they have recommended the use of Tar Water, which in many cases had a good effect; but how to combine medical properties so as to heal the lungs, has ever been a mys-

Many, not only of the people, but physicians of every school and practice, are daily asking me, "What is the principle or cause of your success in the treatment of Palmonary Consumption?" My saswer is this:

The invigoration of the digestive organs-Bottle and Flask, before you buy. the strengthening of the debilitated system—the purification and enrichment of the blood, must expel from the system the corruption which scrofula breeds. While this is effected by the powerful alterative (changing from diseased the alth) properties of the Tar Cordial, its heating and renovating principle is also acting upon the irritated surfaces of the lungs and throat, penetrating to each diseased part, relieving pain, subduing inflammation, and restoring a healthful tendency. Let this two-fold power, the healing and the strengthening, continue to act in conjunction with constant recuperative tendency, and the patient is saved, if he has not too long delayed a resort to the means of cure.
